

FIRM HISTORY

In 1997 a group of dedicated attorneys, paralegals and legal administrative staff created a firm that challenged the principles that define most law firms. We have always stepped out of the box to find creative solutions for you and your business. A unique culture of commitment to exceptional service has always been our mission. We created an atmosphere of shared purpose, with all of our legal professionals and staff working together as a team providing sophisticated, imaginative, honest and efficient counsel. We would neither back down from any challenge nor treat any problem as insurmountable. Our success is measured not by personal gain, but by the satisfaction level and successes of those we represent.
